SEPTEMBER IS NATIONAL RECOVERY MONTH

RECOVERY MONTH

Every Person. Every Family. Every Community.

National Recovery Month (Recovery Month) is a national observance held every September to educate Americans that substance use treatment and mental health services can enable those with mental and substance use disorders to live healthy and rewarding lives. Now in its 33rd year, Recovery Month celebrates the gains made by those living in recovery.

Each year in the past, Recovery Month selected a new focus and theme to spread the message and share success stories of treatment and recovery. The 2022 Recovery Month observance will work to promote and support new evidence-based treatment and recovery practices, the emergence of a strong and proud recovery community, and the dedication of service providers and community members across the nation who make recovery in all its forms possible.

The newly adopted National Recovery Month tagline, "Recovery is For Everyone: Every Person, Every Family, Every Community," reminds people in recovery and those who support them that no one is alone in the journey through recovery. Everyone's journey is different, but we are all in this together. All Recovery Month events are now listed on a new website.
