8. NEW BUSINESS

A. RECREATION SERVICES DIVISION SEMIANNUAL UPDATE

SUBJECT: The Commission received a semiannual update from the Recreation Services Division highlighting programs and services offered during Spring and Summer 2025. Staff provided an overview of current and upcoming programming,

special events, community partnerships, and facility usage that continue to support the City's commitment to quality recreation opportunities for all residents and visitors.

The Commission applauded staff for their hard work and commitment to the community. They had clarifying questions regarding their staffing constraints, the Recreation Management System, and revenue totals.

Commissioner Rogers commented on the high demand for programming and need for space and inquired about the team's involvement with the Plummer Park Visioning Project. Staff acknowledged the comment and confirmed that they are involved in the Plummer Park Visioning process and share their data with that team.

Commissioner Krishna asked if the results from the Recreation Facilities and Operational Study are being considered as the division continues to grow. Once the results are ready, staff will use them as a guide to assist with staffing and programming changes, including budget requests. Krishna offered her condolences for the recent loss of a staff member in the Recreation division.

Commissioner Karliss asked for more information on the Community Garden in the north parking lot and how it can be made more user friendly. Staff commented on the challenges being faced that prevent them from filling up the plots which include the aesthetics of the plot location, noise, and rising heat from the pavement. Staff continue to look for ways to improve the space and will be sharing information and data with the City Council to assess whether the north lot should remain a garden area or revert to a parking lot.

Vice Chair Jackson commented on the high demand for pickleball courts and asked if residents get priority when reserving. Residents do get priority but due to low fees, non-resident participation continues to grow. Jackson inquired about the Senior Dance cutoff number. Staff needs to ensure there is enough room for them to move around safely.

Chair Payton asked if staff have partnerships with local elementary schools to promote events. Staff is cautious about promoting programs that are already near capacity. Payton expressed desire to for Thanksgiving week camps and expanded winter and spring break camps. Staff described calendar limitations due to holidays, pride closures, and staffing availability.

ACTION: Receive and provide input.

B. PLAQUE REQUEST

SUBJECT: The Commission will review a plaque request, in accordance with the City's Plaque Policy Guidelines, and will reach a final determination on whether the City should move forward. The Commission will also consider conducting a comprehensive review of the City's Commemorations, Tribute Trees, and Plaques Policy Guidelines.

Staff presented a memorial plaque request and reviewed the plaque options and location options with the Commission.

Howard Shore, WEST HOLLYWOOD, the applicant for the plaque request, submitted a letter explaining the desire for a memorial plate honoring their deceased parents, they also called in and expressed their preferred location for the plaque.

There was discussion about the preferred location and preferred plaque style.

ACTION: Approve a single plaque with both names to be installed below the park bench at Formosa Park. **Motion by Commissioner Rogers, seconded by Commissioner Ragno, and approved unanimously.**

Roll Call Vote:
Commissioner Karliss – Y
Commissioner Krishna – Y
Commissioner Ragno – Y
Commissioner Rogers – Y
Vice Chair Jackson - Y
Chair Payton – Y

ACTION: Add to the Commission's December meeting agenda: Conduct a comprehensive review of the City's Commemorations, Tribute Trees, and Plaques Policy Guidelines. **Motion by Commissioner Krishna, seconded by Commissioner Karliss, and approved unanimously.**

NEW BUSINESS

SUBJECT: TIPU TREE REPLACEMENT PLANTING PROJECT UPDATE (PHASE 3)

INITIATED BY: FACILITIES AND FIELD SERVICES DIVISION

Phillip Ticun, Manager
Erin Hamant, Senior Administrative Analyst
Scott Smith, Urban Forest, and Landscape Superintendent
Samuel Estrada, Urban Forest, and Landscape Supervisor

STATEMENT ON THE SUBJECT:

The Commission will review the phase 3 planting site data for the Tipu Tree Replacement Planting Project, as outlined and identified in the City's Urban Forest Management Plan.

RECOMMENDATION:

Approve the phase 3 planting site data for the Tipu Tree Replacement Planting Project.

BACKGROUND:`

On September 23, 2019, the City Council adopted the Urban Forest Management Plan (UFMP) as recommended by the Public Facilities Commission. The West Hollywood UFMP was developed to guide the urban forest into the future and satisfies the requirement of the City's General Plan action LU - A.6 that requires an overall street tree master plan. The UFMP was designed to ensure that the community will enjoy the benefits of trees through proper arboricultural techniques and implementation of best management practices. The UFMP considered the best solutions for sustainability and for educating the public about the benefits of trees. An area of significant concern identified in the plan is climate change and the introduction of a variety of exotic pests is having a major impact on the City's urban forest.

In accordance with UFMP Goal 4.1.2, which states "Establish a list of trees to be removed and replaced based on health, location, and contribution," staff worked with certified arborists to survey and prioritize the removal of trees that may be diseased,

unsafe, or subject to invasive pests. The *Tipuana tipu* trees (common name: Tipu) were noted and prioritized in the survey as follows: Priority 1, Priority 2, and Priority 3. Priority 1 trees are recommended for removal and replacement in the next 3 - 6 months; Priority 2 trees would be removed and replaced in 18 - 24 months; and Priority 3 trees would be removed and replaced within 48 months. In addition to assessing for Tipu psyllid damage, the City ranked these trees according to which have the most aggressive root systems causing sidewalk and street damage. The City's goal is to embark on a phased approach over a period of 4 years to ensure the neighborhood does not become barren of trees during this recommended tree removal and replacement process. The various replacement tree species will also enable the City to attain age and species diversity among its population of City trees.

The City has a total of 332 Tipu trees which is approximately 3.8% of the City's urban forest. The greatest concentration of Tipu psyllid infested trees is in the northeast corner of the city. These trees are primarily located on four residential streets: Detroit Street, Formosa Avenue, Fuller Avenue, and Vista Street. There are approximately 136 Tipu psyllid infested trees located in this area of the city as street trees.

On July 13, 2022, the Commission received an update on the state of the Tipu trees located throughout the City. The Commission approved staff's recommendation to proceed with the phased Tipu tree removal schedule and to return to the Commission in the future to review the tree species replacements.

On March 8, 2023, the Commission approved the phase 1 planting site data for the Tipu Tree Replacement Planting Project which consisted of removing and replacing a total of 29 trees between N Vista Street and N Detroit Street.

On January 10, 2024, the Commission approved the phase 2 planting site data for the Tipu Tree Replacement Planting Project which consisted of removing and replacing a total of 51 trees between N Vista Street and N La Brea Avenue.

Phase 1 Planting Site Data

Recommended Replacement Species		Quantity
Quercus agrifolia	Coast live oak	6
Pinus eldarica	Afghan pine	5
Melaleuca quinquenervia	Cajeput tree or paperbark	6
*Pistacia x '*Red Push'	Red Push pistache	3
Afrocarpus falcatus	Fern pine	6
Chilopsis linearis 'Bubba'	Bubba desert willow	2
Vacant Sites (planting delayed due to construction)		1
	Total	**29**

Phase 2 Planting Site Data

Recommended Replacement Species		Quantity
Quercus agrifolia	Coast live oak	9
Pinus eldarica	Afghan pine	3
Melaleuca quinquenervia	Cajeput tree or paperbark	19
*Pistacia x '*Red Push'	Red Push pistache	4
Afrocarpus falcatus	Fern pine	9
Chilopsis linearis 'Bubba'	Bubba desert willow	1
Agonis flexuosa	Peppermint tree	2
Chionanthus retusus	Chinese fringe tree	1
Vacant Sites (to be planted with *Melaleuca quinquenervia*)		1
Sites Planted (1 - *Jacaranda mimosifolia,* and 1 - *Pistacia x '*Red Push')		2
	Total	**51**

Staff hired a certified arborist to conduct site inspections at all tree replacement locations. The inspections reviewed the following: parkway size, adjacent infrastructure (such as driveways, light poles, and sewer lines), adjacent buildings, intersection distance, and high voltage/utility lines. Keeping the City's urban forest diversity and health as the top goal for this planting project, the following species are recommended for phase 3 planting between Detroit Street, Formosa Avenue, Fuller Avenue, Poinsettia Drive, and Vista Street. Refer to Attachment A to review the planting site data. Refer to Attachment B to see photos of the replacement tree species.

Staff reviewed the planting site data in the field and is recommending the following changes to the replanting plan.

- *Pinus eldarica* (Afghan pine) is not recommended based on community feedback which indicates that this tree species is not desired for replacement planting. Staff recommend alternate tree species noted in red on Attachment A.
- Five sites were submitted as possibly nonviable replanting sites. Staff evaluated these locations and concurred that three of them are nonviable sites.

Implementation of phase 3 is the final work to complete the Tipu Tree Replacement Planting Project.

Phase 3 Planting Site Data

PUBLIC FACILITIES, RECREATION, AND INFRASTRUCTURE COMMISSION

NEW BUSINESS

SUBJECT: STANDARD PLANTING PALETTE FOR CITY-MAINTAINED PARKWAYS

INITIATED BY: FACILITIES AND FIELD SERVICES DIVISION

Phillip Ticun, Facilities & Field Services Manager
Erin Hamant, Senior Administrative Analyst
Scott Smith, Landscape & Maintenance Superintendent
Sam Estrada, Urban Forest & Landscape Maintenance Supervisor

STATEMENT ON THE SUBJECT:

The Commission will consider a recommendation by the Greening Standing Subcommittee to adopt a standard planting palette for City-maintained parkway locations throughout the city, with a primary focus on enhancing vehicular and pedestrian visibility and using pollinator-friendly landscaping. The City has identified a new parkway installation near 8700 Dorrington Avenue.

RECOMMENDATION:

Adopt a standard planting palette for City-maintained parkway locations throughout the city.

BACKGROUND/ANALYSIS:

On November 25, 2025, the Greening Subcommittee approved a recommendation by staff to create a standard planting palette for City-maintained parkway locations throughout the city, to be considered for adoption by the Public Facilities, Recreation, and Infrastructure Commission.

Recently, staff have identified a new public area that needs to be landscaped and maintained by the Facilities and Field Services Division. The area is located near 8700 Dorrington Avenue (a parkway along San Vicente Boulevard and the adjacent triangular shaped planter bed). Refer to Attachment A to see the San Vicente X Dorrington - Proposed Planting.

One (1) Proposed Standardized Planting Palettes for City-maintained Parkways

The City presents one (1) proposed standardized planting palette along with companion plant species. The standard planting palette provides a range of ecological, functional, and aesthetic benefits well-suited for urban parkway and planter bed applications. Collectively, these species support local wildlife by providing nectar, pollen, and habitat for native bees, butterflies, and hummingbirds, including critical support for the monarch butterfly.

The selected plants are native and climate-appropriate species with minimal maintenance requirements and low supplemental watering requirements. The proposed plants help to enhance soil stability, promote biodiversity, and contribute to a healthier urban ecosystem. Additionally, the proposed plants are low growing with compact forms to ensure clear visibility for vehicles and pedestrians.

Planting Criteria

- Emphasis on native and drought-tolerant species
- Attractive with seasonal flowers for continuous pollinator support
- Low maintenance; Exclusion of invasive or high-maintenance plants
- No chemical pesticide requirements
- Low water needs once established
- High resilience in urban conditions
- Educational value for community education and engagement

The standard planting palette for City-maintained parkways provides a range of attractive plants ideal for high-traffic locations and compatible with an urban parkway environment.

Additionally, companion plants serve multiple ecological and practical functions:

1. Pest Management: Companion plants attract beneficial insects that prey on pests and reducing the need for chemical controls.
2. Habitat Enhancement: Companion plants provide shelter or alternate food sources for wildlife, pollinators, and other beneficial organisms.
3. Soil Health and Structure: Selecting companion plants that fix nitrogen and improve soil structure with deep root systems which is beneficial to neighboring plants.
4. Biodiversity Buffering: Companion plants increase plant diversity within a small space which leads to a more resilient and stable plant network.
5. Aesthetic and Structural Balance: Selecting companion plants that enhance visual appeal (aesthetics), bloom succession (frequency), and physical structure supports essential ecological functions and human enjoyment.

Proposed Planting Palette: 8 Plants

Narrowleaf milkweed *Asclepias fascicularis* 	Diamond Heights Carmel Creeper *Ceanothus griseus* var. *horizontalis* 'Diamond Heights'
Golden Yarrow *Eriophyllum confertiflorum* ‘Yarrow’ 	California Aster *Corethrogyne filaginifolia*
Autumn Sage *Salvia greggii* 	Dana Point Buckwheat *Eriogonum fasciculatum* ‘Dana Point’
Yankee Point Carmel Ceanothus *Ceanothus griseus* var. *horizontalis* ‘Yankee Point’ 	Apricot Mallow *Sphaeralcea ambigua*

Proposed Companion Plants

Palmer's Indian Mallow *Abutilon palmeri* 	California Lilacs or Wild Lilacs *Ceanothus spp.*
Western Thistle or Cobweb Thistle *Cirsium occidentale* 	California Aster *Corethrogyne filaginifolia*
California Fuchsia *Epilobium canum* 	Wild Buckwheats *Eriogonum spp.*

Mints *Monardella spp.* 	Monkey Flowers *Mimulus spp.*
Beardtongues *Penstemon spp.* 	Sages *Salvia spp.*
Apricot Mallow *Sphaeralcea ambigua* 	California Bush Sunflower *Encelia californica*

PUBLIC FACILITIES, RECREATION, AND INFRASTRUCTURE COMMISSION

DECEMBER 10, 2025

NEW BUSINESS

SUBJECT: ANNUAL CALENDAR

INITIATED BY: FACILITIES AND FIELD SERVICES DIVISION

Phillip Ticun, Manager
Erin Hamant, Senior Administrative Analyst

STATEMENT ON THE SUBJECT:

The Commission will review its schedule of regular meetings, special meetings, and special events in the Annual Calendar and consider various date recommendations by staff.

RECOMMENDATIONS:

1) Select Saturday, April 18, 2026, for the Annual Tree Planting Event.
2) Select Wednesday, April 22, 2026, as a Special Meeting.
3) Select Saturday, September 19, 2026, for the Annual Tour of City Facilities as a Special Meeting.
4) Select Wednesday, October 14, 2026, for the Annual Televised Meeting as a Special Meeting.
5) Select Wednesday, November 18, 2026, as a Special Meeting.

BACKGROUND:

The Commission holds its regular meetings on the second Wednesday of each month at 6:30 PM. Attachment A is the Annual Calendar with the Commission's regular meetings outlined with red boxes, special meetings in blue boxes, and recreation semi-annual review meetings in orange boxes (which occur every April and November). All staff recommended changes to the 2026 dates are below summarized.

April – Special Meeting

The Commission's regularly scheduled meeting in April occurs in 2026 during Jewish Passover, where work is not permitted. Staff recommend the Commission select

Wednesday, April 22, 2026, as a special meeting. April is also when the Recreation Services Division provides its semi-annual review to the Commission. This date is noted on the calendar with a blue box and an orange box.

April – Annual Tree Planting Event

The Commission hosts an Annual Tree Planting Event in March or April each year in celebration of West Hollywood's trees. Staff recommend the Commission select Saturday, April 18, 2026, as the date to host the Annual Tree Planting Event. This date is noted on the calendar with a green box.

September – Annual Tour of Public Facilities

The Commission conducts an Annual Tour of Public Facilities as a special meeting on a Saturday in lieu of its regularly scheduled meeting. Staff recommend the Commission select Saturday, September 12, 2026, as the date for the Annual Tour of Public Facilities. This date is noted on the calendar with a lavender box and a blue box.

October – Annual Televised Meeting

The Commission conducts an Annual Televised Meeting each year in the West Hollywood Council Chambers (located at 625 N. San Vicente Blvd.) as a special meeting. Staff recommend the Commission select Wednesday, October 14, 2026, as the date for the Annual Televised Meeting. This date is noted on the calendar with a blue box.

November – Special Meeting

The Commission's regularly scheduled meeting in November occurs in 2026 on Veterans Day, which is a City holiday. Staff recommend the Commission select Wednesday, November 18, 2026, as a special meeting. November is also when the Recreation Services Division provides its semi-annual review to the Commission. This date is noted on the calendar with a blue box and an orange box.
